Admission requirements

A completed university degree and at least one year of related professional experience after graduation. Industry professionals holding a university entrance qualification and at least 3 years of professional experience can be admitted after passing a qualifying test. Successful participation in a selection interview. Proof of English language skills (at the B2 level according to the Common European Framework of Reference for Languages).

Don’t have a valid certificate of your language abilities? Ask us about our online language exam!

The application deadline is July 15.

Apply before April 30 and benefit from our early bird conditions!
Our approach

Master your sales – sustainably!

Being successful in business has long ceased to depend on product quality alone. Globalization, the opening of new markets, climate change, as well as changes in customer behavior are just a few examples of the areas that require sustainable business management.

The Master of Business Administration (MBA) Wine, Sustainability & Sales provides an internationally oriented study program for working professionals, focusing on sustainable management and sales concepts. Problem-solving skills and business methods are taught using real-world examples from managerial practice and the wine industry.

Students receive intensive instruction in the latest developments in the international wine market, consumer research and sensory analysis of wine. At the same time, they become well acquainted with the world of international wines, their special features and sensory characteristics.

“Gain know-how in sales and sustainable business management combined with expertise in wine. Benefit from an international team of experienced instructors. Focus on both research and practical application. Our approach.”

Program at a glance
