

Information about Corona-Virus COVID-19

Since early December 2019, there has been an increasing number of cases of respiratory disease caused by a novel coronavirus (SARS-CoV-2). The disease is transmitted from person to person, primarily via respiratory secretions. The following symptoms may occur after an incubation period of up to 14 days:

Fever, cough, difficulty in breathing

Wash your hands

Wash your hands with soap and running water when **hands are visibly dirty**

If your **hands are not visibly dirty**, frequently clean them by using alcohol-based hand rub or soap and water

 World Health Organization

Keep your hands away from face, mouth, nose, eyes

When coughing and sneezing cover mouth and nose with flexed elbow or tissue and keep away from other persons

Avoid physical contacts

Open the windows of your flat regularly for air circulation
