

IO1 Workshop “Academic Writing and Presentation Techniques”

In this workshop international exchange students will get an insight in scientific writing at a German university and what it means to prepare for a seminar or research paper and presentation respectively. In most countries this topic is dealt with in large details at the graduate level. In Germany however, students have to address detailed and strict scientific requirements when writing a paper and preparing a presentation at the undergraduate level already.

Students will learn about what is expected from them in seminars, presentations and research papers and what role AI plays in all of this. They will also get an insight in the cultural background of German academia and etiquette at German universities. The overall goal is to improve their skills in academic writing and the usage of AI according to the German academic standards.

Workshop Content

- Academia in Germany
- Six phases of academic text production
- Practical tips when writing a paper or preparing a presentation with and without AI
- Practical exercises

Assessment: 100% attendance

Lecturer: LB Carsten Münch

ECTS: 1
